

# Excluded Investments

February 2024

Funds and other investment products managed through the Danske Bank Group can be restricted by a pre-defined list of investment exclusions ensuring adherence to Group Position Statements and/or that the respective strategies have a lower exposure towards investments with negative impact on sustainability factors. Exclusions may also safeguard principles on good governance.

Depending on the combination of exclusions, investment products that apply exclusions as binding elements in investment strategies are considered to promote environmental and/or social characteristics in the form of:

1. Adherence to UN Global Compact, principles, OECD Guidelines for Multinational Enterprises, UN Guiding Principles on Business and Human Rights and ILO conventions and other relevant social safeguards through the exclusion of **certain activities and conducts deemed harmful to society**.
2. Promotion of environmental safeguards through the exclusion of **certain activities deemed to have significant negative climate impact**.
3. Promotion of certain ethical and social safeguards through the exclusion of **certain activities deemed to be non-ethical or controversial**.

The table below outlines investments excluded under exclusions captured by each exclusion category (detailing exact theme relevant for the exclusion).

For specific information on whether an investment product promote any of the above listed environmental or social characteristics and information on the exclusions applied for such characteristics, please see the so-called SFDR annex to the prospectus, portfolio management agreement or other pre-contractual documentation entered with Danske Bank.

For further information on the exclusion categories, activities, criteria, scope and thresholds employed by Danica Pension, see the Exclusion Instruction here [exclusion-instruction\\_danica-pension.pdf](https://www.danicapension.dk/exclusion-instruction_danica-pension.pdf) ([danicapension.dk](https://www.danicapension.dk)).

Because of current market conditions as well as our duty to act in best interest of clients, certain companies/countries listed below may at the time of publication of this list still be present in portfolios, but with the aim of being divested.

*Certain issuers can be exempted from exclusions if warranted due to fiduciary duties and approved in accordance with internal governance. Those relevant issuers are listed in the end of the document, together with information on companies deemed as transition cases per the thermal coal and fossil fuel exclusions of the Exclusion Instruction.*

Company	Exclusion Category	Criteria
Arrow Exploration Corp.	Activities resulting in significant negative impact on the climate	Tar sands
Athabasca Oil Corporation	Activities resulting in significant negative impact on the climate	Tar sands
Baytex Energy (LP) Ltd.	Activities resulting in significant negative impact on the climate	Tar sands
Baytex Energy Corp.	Activities resulting in significant negative impact on the climate	Tar sands
BlackPearl Resources, Inc.	Activities resulting in significant negative impact on the climate	Tar sands
Canadian Natural Resources Limited	Activities resulting in significant negative impact on the climate	Tar sands
Cenovus Energy Inc.	Activities resulting in significant negative impact on the climate	Tar sands
Ecopetrol SA	Activities resulting in significant negative impact on the climate	Tar sands
Freehold Royalties Ltd.	Activities resulting in significant negative impact on the climate	Tar sands
Harvest Operations Corp.	Activities resulting in significant negative impact on the climate	Tar sands
Husky Energy Inc.	Activities resulting in significant negative impact on the climate	Tar sands
Imperial Oil Limited	Activities resulting in significant negative impact on the climate	Tar sands
Japan Petroleum Exploration Co., Ltd.	Activities resulting in significant negative impact on the climate	Tar sands
MEG Energy Corp.	Activities resulting in significant negative impact on the climate	Tar sands
